ABOUT

The Cultural and Creative sectors are among the hardest hit industries by the pandemic. COVID-19 and its related consequences, such as lockdowns, negatively affected people working in these industries. People working in the Cultural and Creative Sectors have faced reduced income and even, in some cases unemployment.

The HeART project will enhance the competencies and skills of artists and individuals working in the Cultural and Creative Sectors and secure their inclusion in the labour market and society in general. To achieve this, the project will focus on the following capacities:

1. Entrepreneurship, Employability, and Business Administration Skills (Goal setting, business setup, networking, communication, collaboration, negotiation).
2. Psychological Capacities (character strengths, empowerment, stress management, emotion regulation).
3. Digital media skills (digital skills, marketing, social media promotion, advertising and selling).

OBJECTIVES

The specific objectives of the HeART project are to:

- Build the skills of young individuals in the areas of entrepreneurship and digital skills.
- Empower young people by enhancing their psychological capacities and wellbeing.
- Support the networking of individuals in the EU among partner countries and beyond.
- Provide useful information and guidance to Youth Workers, Trainers, Mentors and others, to better support young artists.
- Combat unemployment in the creative sector - Equip young people with skills and competencies needed to enter the art labour market and sustain a stable income.
